

Name: Daniele Ventriglia
Placed As: Technical Manager
Company: FISITA

How did you first come to work with Copeland?

I responded to a LinkedIn advert as the job looked interesting.

What career goals were you trying to achieve?

I was not actively looking but I was potentially open to something that would give me broader experience within a businesses. With 20 years' experience in engineering I was interested in gaining exposure to different issues and the wider businesses in general.

What have been the benefits of working with Copeland?

I think you were very honest immediately with the role. You explained it well. An advantage was to get a good explanation of the role and the employer.

What's it like working with Copeland?

It was a delightful experience. You were always available to answer my questions.

It was a delightful experience. You were always available to answer my questions.

-Daniele Ventriglia, placed as Technical Manager, FISITA
