

Name: Mo Ali Nur

Placed As: Account Specialist

Company: Motability Operations

How did you first come to work with Copeland?

You initially contacted me via LinkedIn about another job. Then a year or so later you re-contacted me about this job.

What career goals were you trying to achieve?

I was in a sales role in a dealership and felt like I had reached my limit. I wanted a Monday to Friday job where there were opportunities to progress my career.

How closely did the role fit you career goals?

100% - it's exactly as you explained it to me and better.

What have been the benefits of working with Copeland?

A much more stable salary and a better lifestyle. I now have weekends off and can partly work from home. I am working in an organisation where growth is encouraged and I feel like I am on a career path.

What's it like working with Julia?

Absolutely fantastic. You really care and answered every question I had and explained the benefits of the job. You were very reassuring and helped me be very well prepared for my interview. I have spoken to many recruiters the past where I felt like I was just another number.

You were very reassuring and helped me be very well prepared for my interview.
