

Name: Keely Pizarro

Placed As: Regional Marketing Manager, Toyota

Company: TMW

How did you first come to work with Copeland?

A few years ago I was looking for a new role and someone recommended Copeland. You consequently found me a job. It was a very positive experience so I contacted you again when I was again looking for a new job.

What career goals were you trying to achieve?

I'd been in my role for 8 years. I'd just finished my diploma in marketing and was looking for the next step up. I was no longer feeling challenged in my role and was looking for somewhere to progress my career – ideally working for one brand only.

How closely did the role fit your career goals?

It 100% fitted my career objectives and has exceeded them and its giving me the chance to work in a more consultative role and share my experience with other dealers.

What have been the benefits of working with Copeland?

You organised everything and chased on my behalf. Even though it was a lengthy interview process you kept me regularly updated. You took all the stress and hassle out of the interview process.

What's it like working with Julia?

A very slick process - incredibly professional but really friendly. Your advice and guidance was invaluable as I progressed through the interviews. You were really positive and guided me through quite a daunting interview process. I felt like you championed me.

The personal service that you offer made me feel like I was your only candidate. I would not hesitate in recommending you to others – it's the best recruitment service I have ever experienced.

I would not hesitate in recommending you to others – it's the best recruitment service I have ever experienced.
